\*Total facility bookings- does not include alternative custody programs and individuals deemed not fit for jail.

\*\*Number of individuals, on the last day of the month, receiving psychotropic medication for a mental health disorder.

\*\*\*These figures reflect the number of individuals that had Naloxone administered to them as a result of a suspected overdose incident. Naloxone is administered to any individual who presents signs of opioid overdose or when opioid overdose is suspected. Medical follow-up on suspected overdoses is completed on an individual basis and is noted in the individual's medical records; therefore, this data is not tracked at the aggregate level. Includes only incident reports that were approved and submitted as of report date. Totals are subject to change due to data reconciliation and updates made to incident reports.
